Improvement to Terminal 1 and 2 Aircraft Parking Stand Illumination

Dear Sir,

TO WHOM IT MAY CONCERN

GIB Automation Pte Ltd has recently completed the installation of a new LED Apron Floodlight at Terminal 1 & 2, Singapore Changi Airport.

Throughout the project implementation, we have found that GIB Automation Pte Ltd to be reliable, professional and cooperative despite the degree of difficulty for the project, since it was carried out in an operational environment.

The project requires the candidate to adhere to the International Civil Aviation Organization (ICAO) guidelines. GIB Automation have shown the capability to comply to these guidelines and the lighting installed has been able to perform up to the mark of the strict requirement, considering GIB Automation Pte Ltd first Apron Aircraft Parking Stand installation work.

We are therefore extremely satisfied with the quality of their work. GIB Automation has proven their ability in responding to any emergency calls throughout the project.

We will definitely recommend GIB Automation Pte Ltd for any other similar projects in the future.

Yours sincerely,

Anuar Ali
Senior Associate(Ext Eng Syst)
