

01 August 2001

To whom it May Concern

GIB Automation Pte Ltd is currently doing the maintenance of the BAS System for 78 Shenton Way. So far, they have proven themselves to be very reliable with a fast response time and we are extremely satisfied of the services provided by them. They have excellent knowledge in the Sauter System and provide adequate solutions To any problems encountered in the field.

Their maintenance contract will be renewed for the 8th year on August 2001 and we hope that they will maintain their current standard.
